I. Access Control of Cases and Letters:

Cases:

- **Cases have been categorized into 3 categories based on the Nature of Case i.e.**
 - **Regular**
 - Cases are accessible to all the users of vertical (for HO) and to all the users of Department (for RO/TE).
 - Cases can also be forwarded to other Vertical (only for HO), another Department, Other Office (HO/RO/TE).
 - **Confidential**
 - Cases are accessible to those who users who are part of the workflow.
 - Cases can also be forwarded to other Vertical (only for HO), another Department, Other Office (HO/RO/TE)
 - **Secret**
 - Cases are accessible to those who users who are part of the workflow.
 - Cases cannot be forwarded to other Vertical (only for HO), another Department, Other Office (HO/RO/TE)
- Even though cases can be forwarded across Verticals (only for HO Users)/Departments/Offices, access to case is restricted to the user with whom the case is currently pending. Once a case is forwarded to another user, the previous user will no longer be able to view the case, ensuring confidentiality and controlled access.

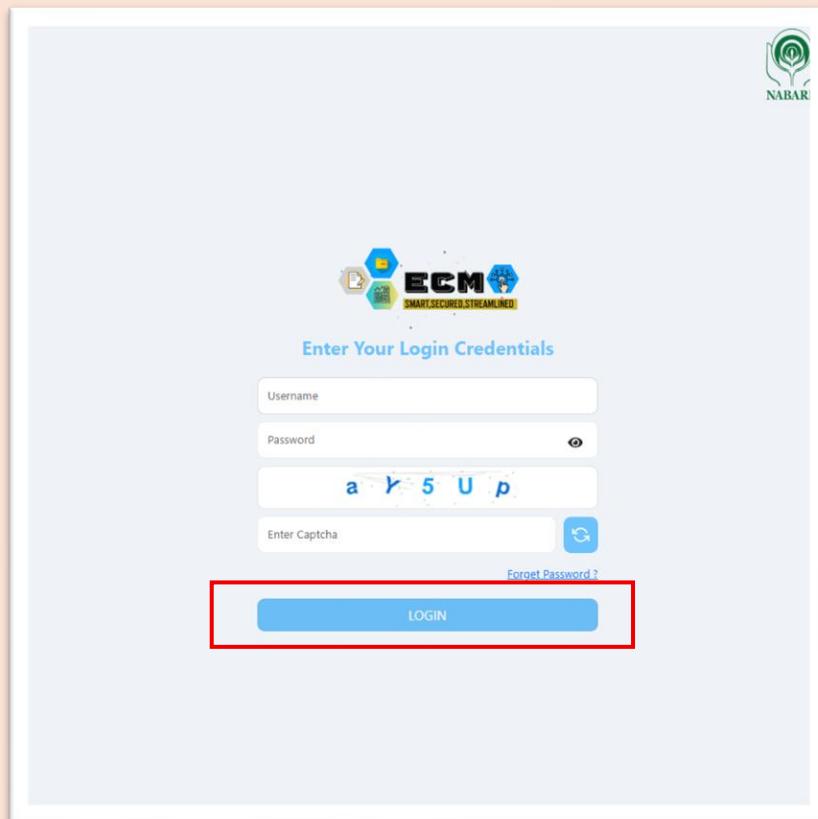

Letters

- **Letters have been categorized into 3 categories based on Secrecy of the Letter i.e.**
 - **Regular**
 - Letters are accessible to all the users of vertical (for HO) and to all the users of Department (for RO/TE).
 - **Confidential**
 - Letters are accessible to those who users who are part of the workflow.
 - **Secret**
 - Letters are accessible only to the OICs.
- The Letters are further categorized as “For Action” and “For Information.” In the upgraded application, letters can be closed by users of the receiving department based on the applicable category, as detailed below

	HO Users		RO/TE Users	
Secrecy of Letters	For Information Letters	For Actionable Letters	For Information Letters	For Actionable Letters
Regular	Can be accessed and closed by all users of vertical	Can be closed by OIC, CGM Sect, Vertical Head	Can be accessed and closed by all users of department	Can be closed by OIC, CGM Sect, Department Head
Confidential	Can be accessed and closed only by user to whom the letter is sent	Can be accessed and closed by OIC, CGM Sect, Vertical Head	Can be accessed and closed only by user to whom the letter is sent	Can be accessed and closed by OIC, CGM Sect, Department Head
Secret	Can be accessed and closed only by OIC	Can be accessed and closed only by OIC	Can be accessed and closed only by OIC	Can be accessed and closed only by OIC

1. How to Login into Application

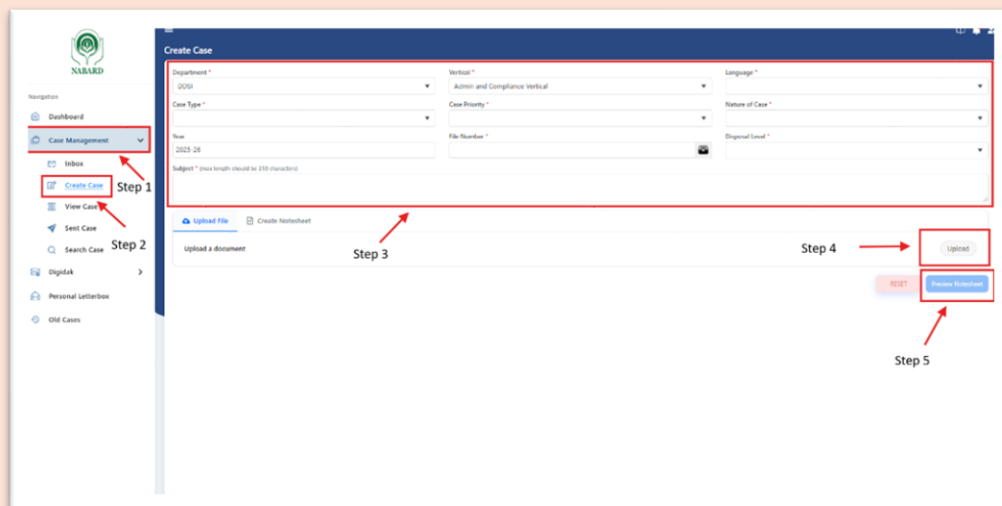

- **Step 1:** Go to URL
http://192.168.15.190:8080/Case_Management_System
- **Step 2:** Fill in username (your e-mail address without domain name), password and Captcha and Click on Login Button.

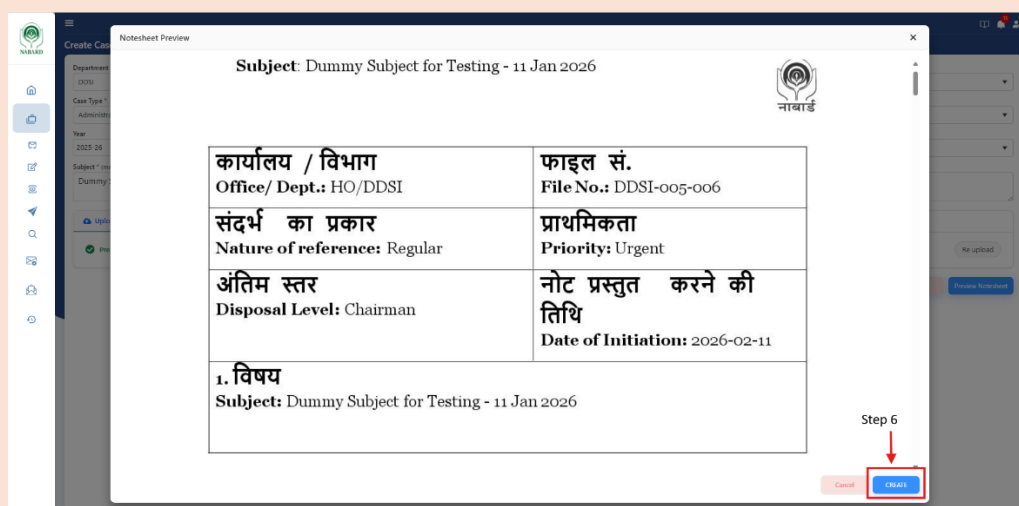

The screenshot shows the login interface of the ECM (Enterprise Case Management) application. In the top right corner, there is a logo for NABAR. The main heading is "ECM" with the tagline "SMART.SECURED.STREAMLINED" below it. The instruction "Enter Your Login Credentials" is displayed above the input fields. There are four input fields: "Username", "Password" (with an eye icon for toggling visibility), a Captcha field showing the text "a r 5 U p", and "Enter Captcha". To the right of the Captcha field is a refresh icon. Below the input fields is a "Forgot Password ?" link. The "LOGIN" button is highlighted with a red rectangular border.

2. How to create and initiate a Case on ECM.

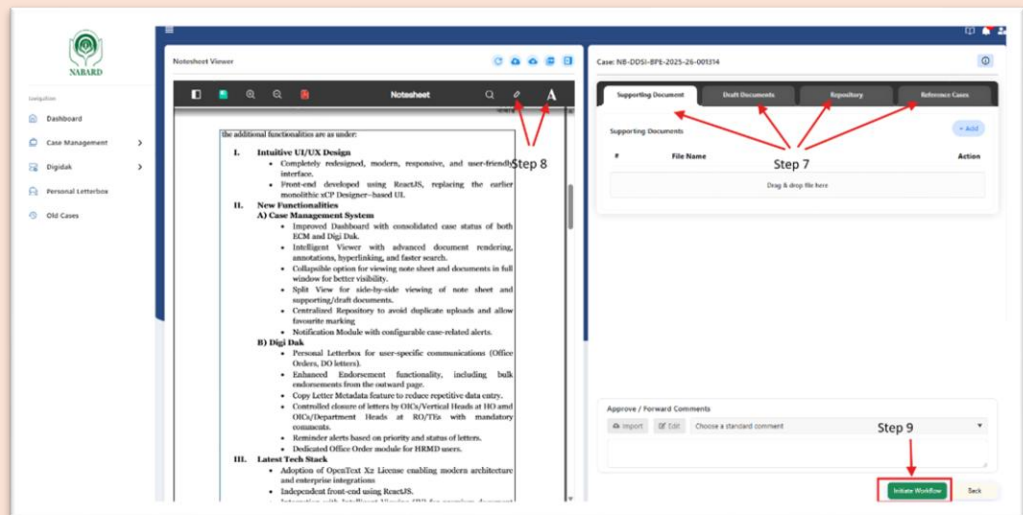

- For creating a case, the user needs to click on the Create Case menu in the left navigation bar and follow the following steps :
 - **Step 1:** Click on Case Management
 - **Step 2:** Click on Create Case
 - **Step 3:** Fill in all required metadata in Textboxes and Dropdowns
 - **Step 4:** Upload the Notesheet.
 - **Step 5:** Click on Preview Notesheet to view the uploaded notesheet

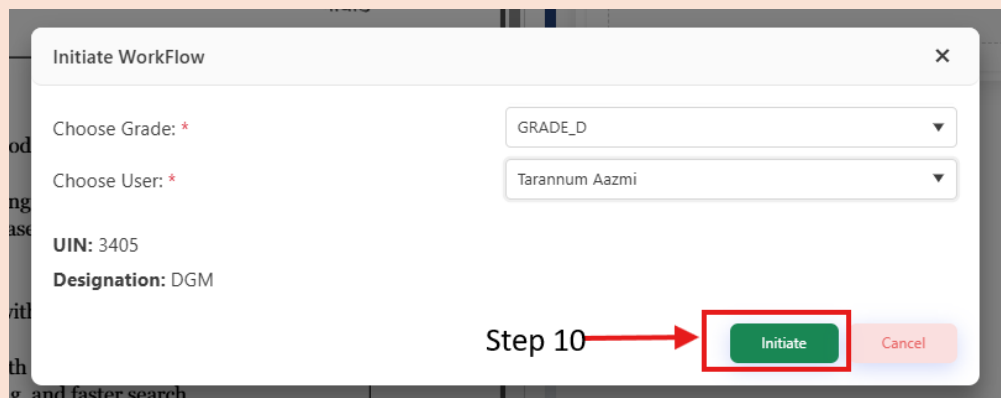

- **Step 6:** Click on Create case to create the case which will redirect the user to case details page.

- **Step 7:** If required, [add Supporting Documents / Draft Documents /Circulars from Repository/ Reference Cases.](#)
- **Step 8:** If required, [add a hyperlink, highlight, write something on the document.](#)
- **Step 9:** Click on Initiate Workflow Button

- **Step 10:** Select the Grade and User to whom the case is to be forwarded and click on Initiate button to put up the case.

3. How to view Pending Cases.

- Users can view Pending cases on the Dashboard Page

Pending Cases with Me : 37

4. How to view cases all cases of your vertical (for HO Users) and department (for RO/TE Users)

- Users can view the status of all the cases vertical wise or Department wise on the Dashboard Page.

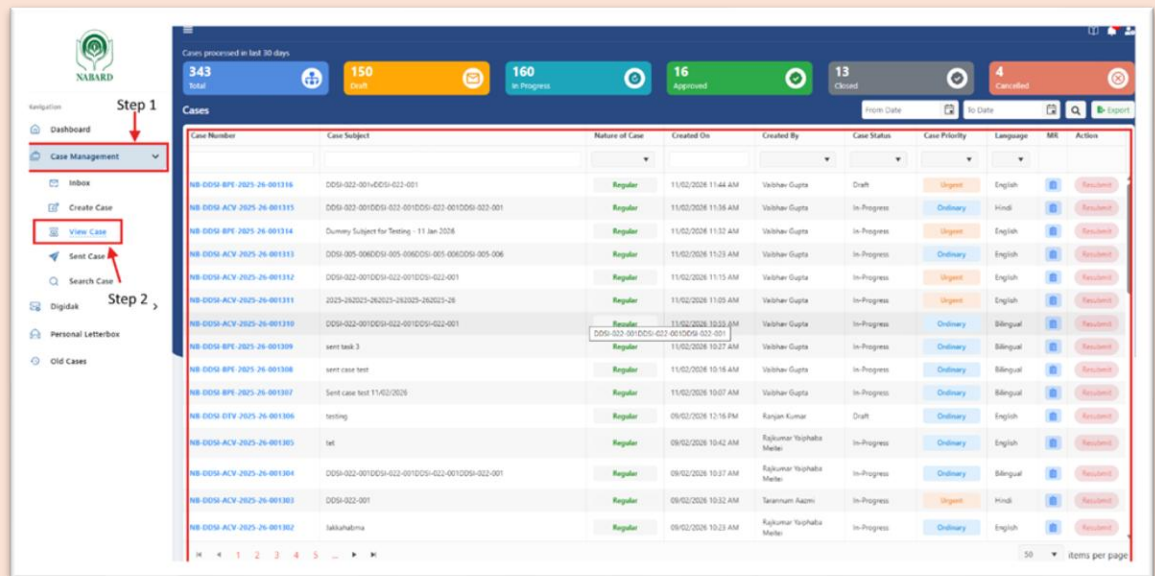

➤ **Step 1:**

For HO users	For RO/TE Users
Click on the dropdown next to Department, by default the pie chart shows the data of all the verticals . Users can select any one vertical and the data in the pie chart will show data accordingly.	Click on the dropdown next to Regional Office, by default the pie chart shows the data of all the departments pertaining to the user. Users can select any one department and the data in the pie chart will show data accordingly.

- **Step 2:** Users can click on any one section of the pie chart which will redirect the user to View Cases Page.

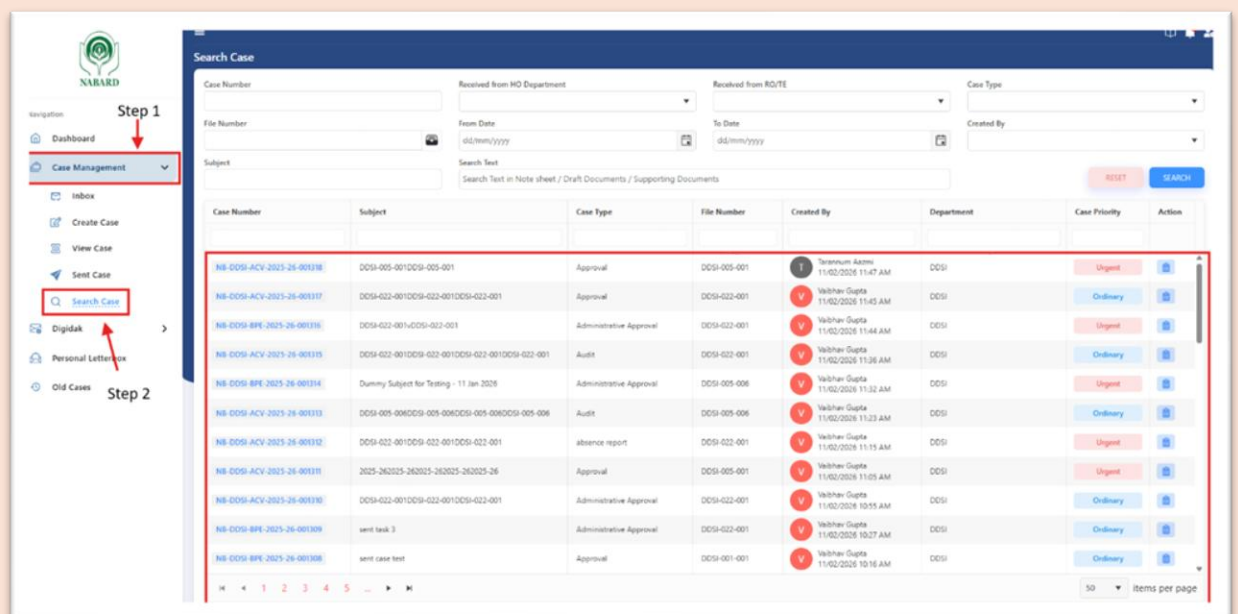

- Users can also go directly to View Case Page to view all the cases.
 - **Step 1:** Go to Case Management
 - **Step 2:** Click on View Case Page on the left navigation bar

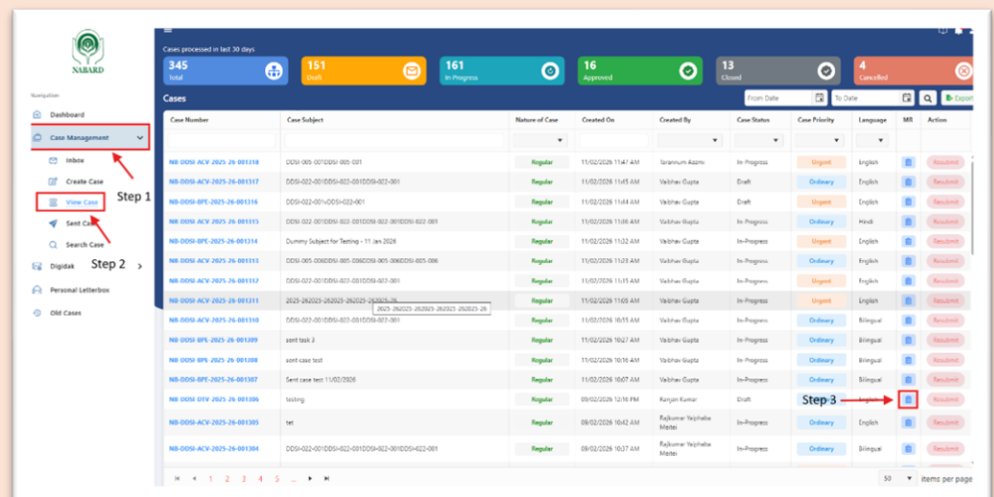

5. How to Search a Case

- Users can Click on the Search Case Link on the left navigation bar to reach to Search Case Page wherein they can view the cases that are related to user's vertical (for HO Users) and department (for RO/TE Users).
- There are multiple Filters based on which, cases can be searched. For example, if a case had come from DIT Department,
 - **Step 1:** Users can select DIT in Received from HO Department Dropdown
 - **Step 2:** Click on Search button to get the cases received or sent to the Department.

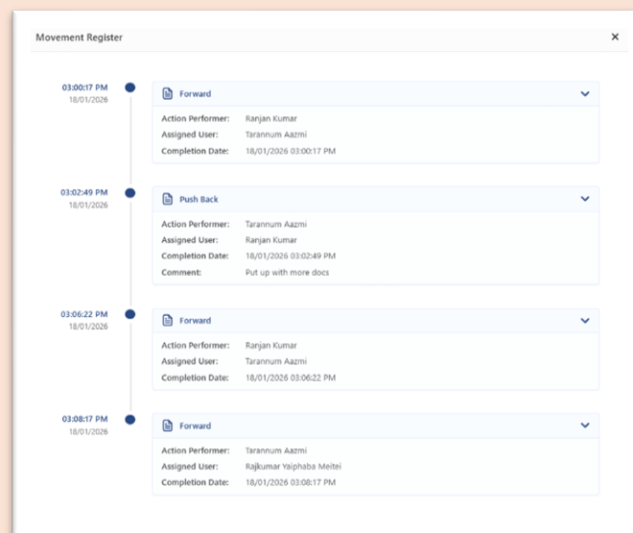

6. How to track the movement of a Case

- Cases can be tracked by clicking on the Movement Register icon  on the case details page or in the same row of View Case or Search Case page. For example, to track the movement of a case
 - **Step 1:** Click on the View Case Page
 - **Step 2:** move to the MR (Movement Register Column) of the case that you want to track
 - **Step 3:** Click on the  icon

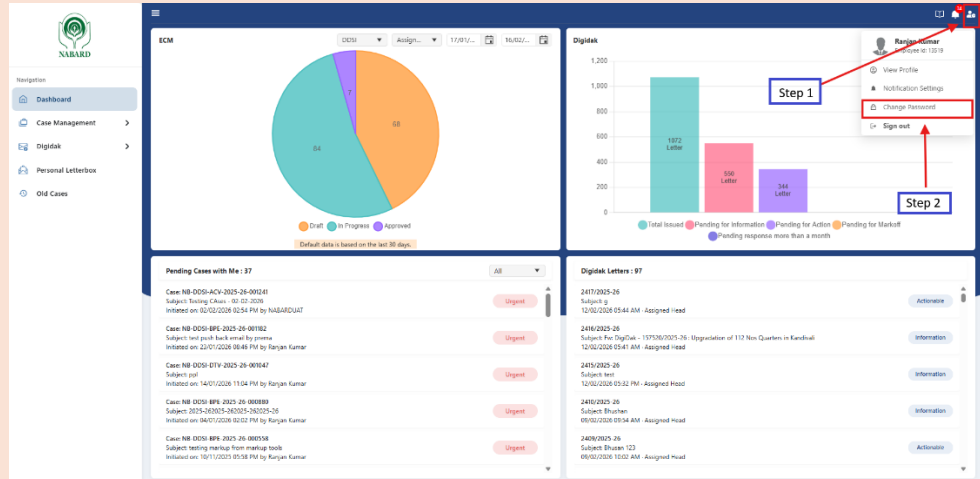

Which will open the movement register for the case.

7. How to customize or change the password.

- Users can change the password by following the below mentioned steps:
 - **Step 1:** Click on the user icon  on the extreme right of any page
 - **Step 2:** Click on 'Change Password' menu

- **Step 3 :** A pop up would come that will request the user to login again after the password change , Click on Yes
- **Step 4 :** Change Password and Login with new Password.

An automated reminder facility will be

Change Password

Old Password

Validate

New Password

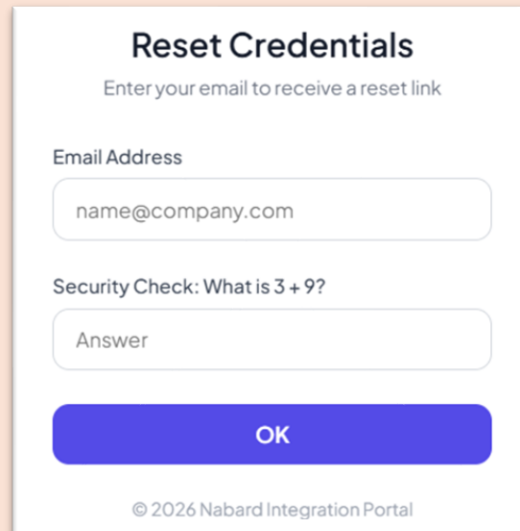

Confirm New Password

SAVE

8. How to get new password by using Forgot Password.

- Users can get new password by using Forgot Password link on the Login Page.

- **Step 1:** Click on [Forgot Password?](#) Link on the Login Page
- **Step 2:** You will be redirected to new page as under:

A screenshot of a web form titled "Reset Credentials". Below the title is the instruction "Enter your email to receive a reset link". The form contains two input fields: "Email Address" with the placeholder text "name@company.com", and "Security Check: What is 3 + 9?" with the placeholder text "Answer". Below these fields is a large blue button labeled "OK". At the bottom of the form, there is a copyright notice: "© 2026 Nabard Integration Portal".

Reset Credentials

Enter your email to receive a reset link

Email Address

name@company.com

Security Check: What is 3 + 9?

Answer

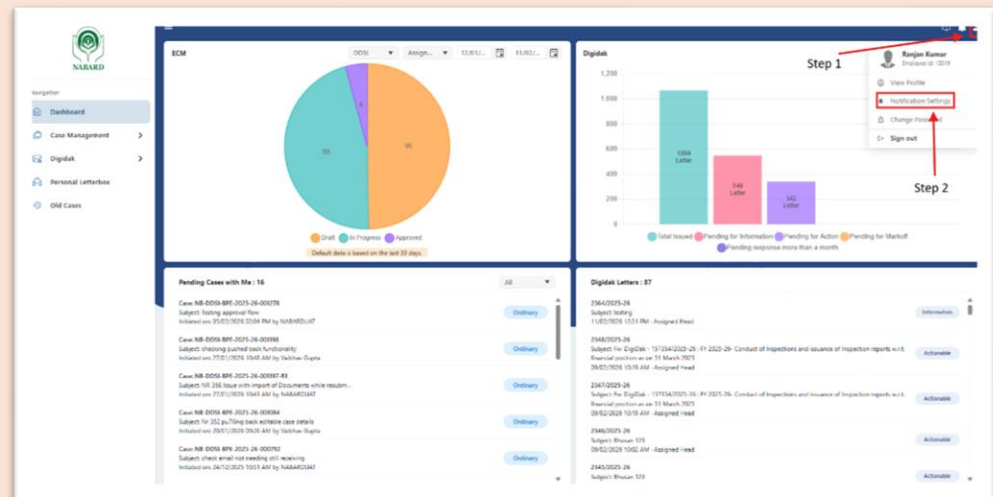

OK

© 2026 Nabard Integration Portal

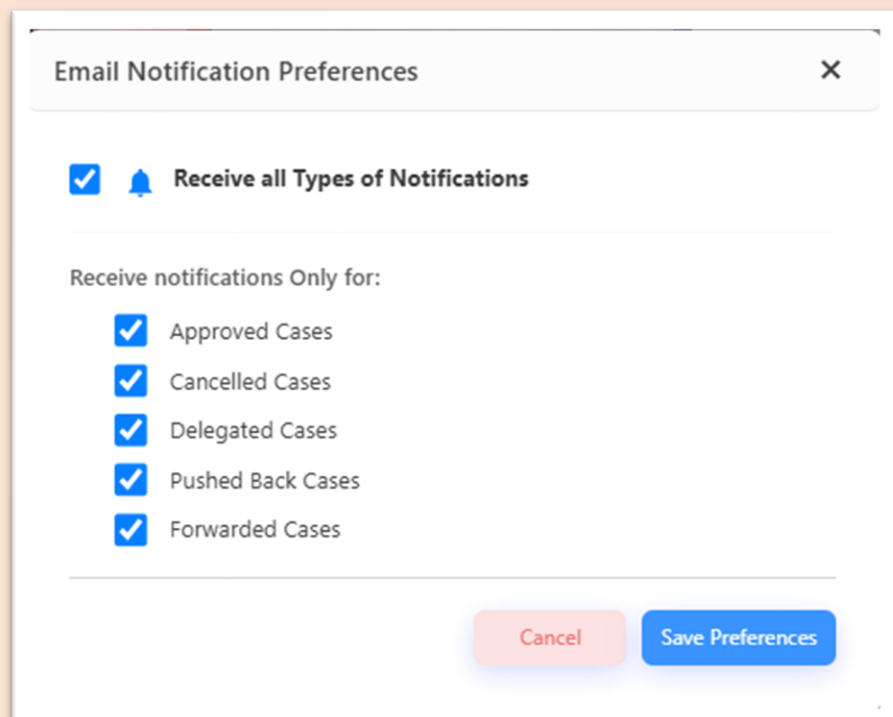

- **Step 3:** Enter e-mail ID and answer the security question
- **Step 4:** You will receive an e-mail to reset your password, please reset it by clicking on the link in the e-mail.

9. How to customize the type of e-mail that the user wants to receive.

- Users can opt the type of e-mail reminders that they would like to receive. The steps are as under:
 - **Step 1:** Click on the user icon  on the extreme right of any page
 - **Step 2:** Click on Notification Settings

- **Step 3:** The pop up for e-mail notification preferences will open. The user can check on the checkboxes for the type of e-mail reminders that they would like to receive and uncheck vice-versa.

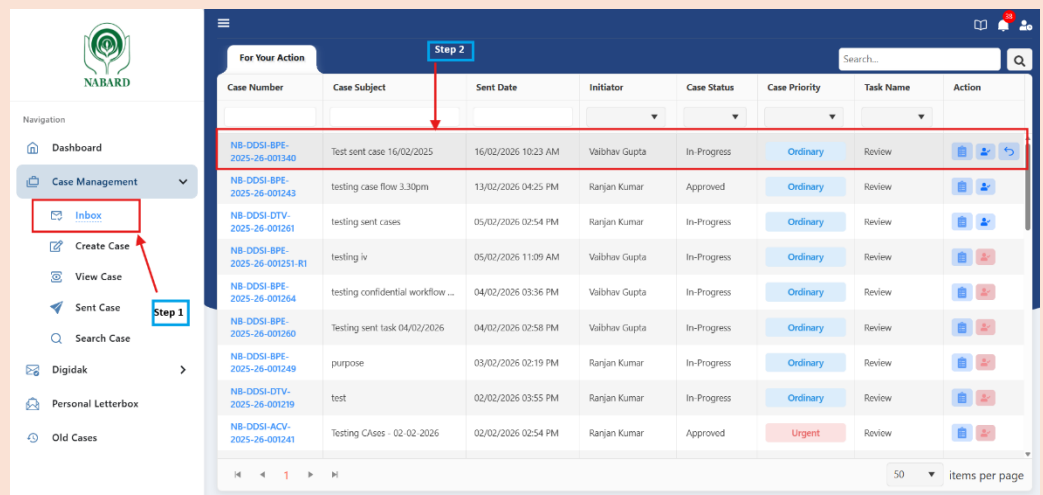

10. How to Add Supporting / Draft Documents in a Case

- Users can Add Supporting Documents by using Add button or drag and drop multiple documents at once. The Steps of the same is as under:

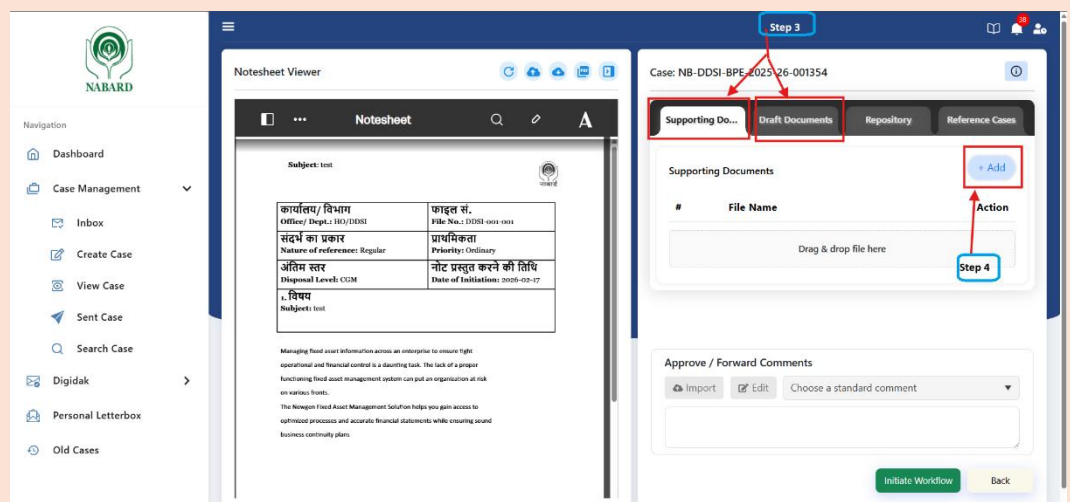

Using Add Button

- **Step 1:** Create a case or open case from inbox case menu.
- **Step 2:** Open the Case details page of the case in which the documents are to be added.

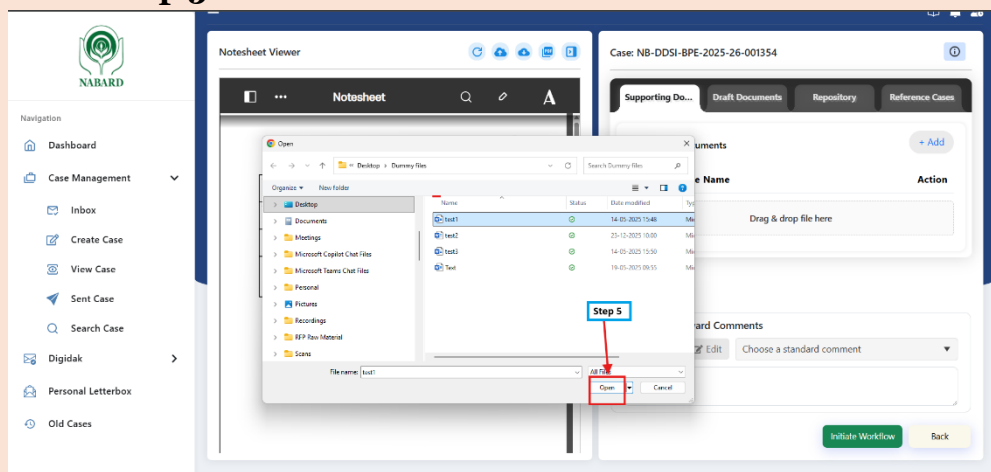

- **Step 3:** Click on Supporting Document / Draft Document Tab

- **Step 4:** Click on  Add Button on case details page

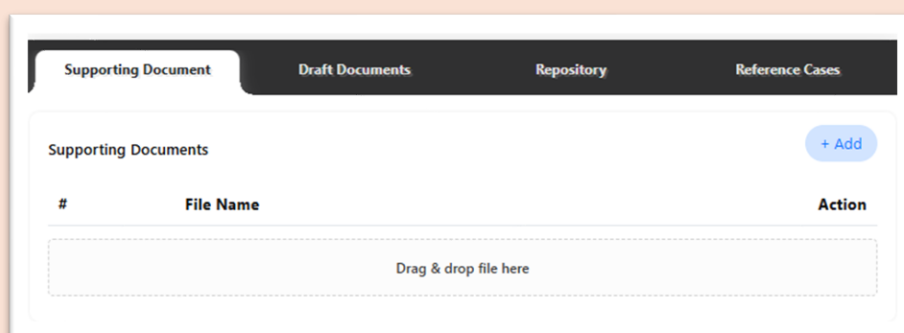

➤ **Step 5:** Select the files that the user wants to add

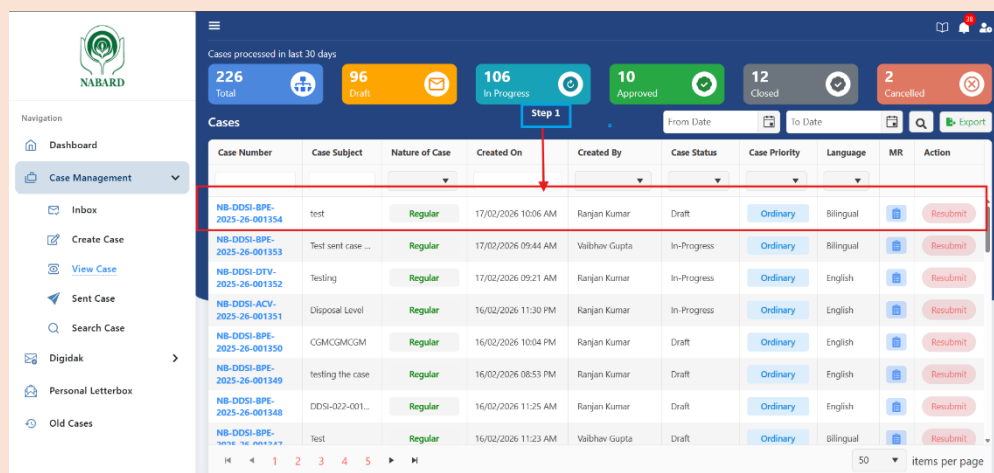

Using Drag and Drop Option

➤ **Step 1:** Drag the documents from the source and release the documents in the Drag and Drop Files Here bar as shown below.

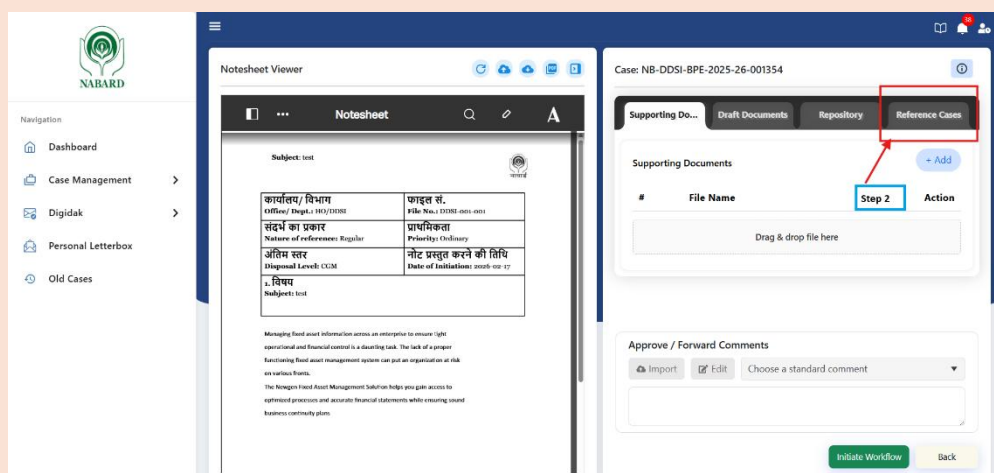

11. How to Add Reference Cases in a Case

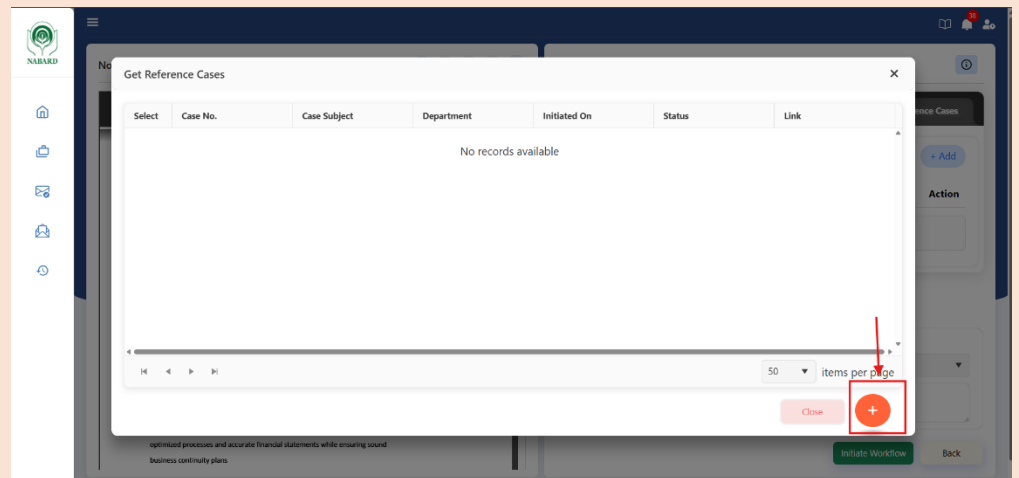

- Users can refer to approved and closed cases by adding them into the Case Details by following the below mentioned steps:
 - **Step 1:** Open the Case details page of the case in which the reference case(s) are to be added

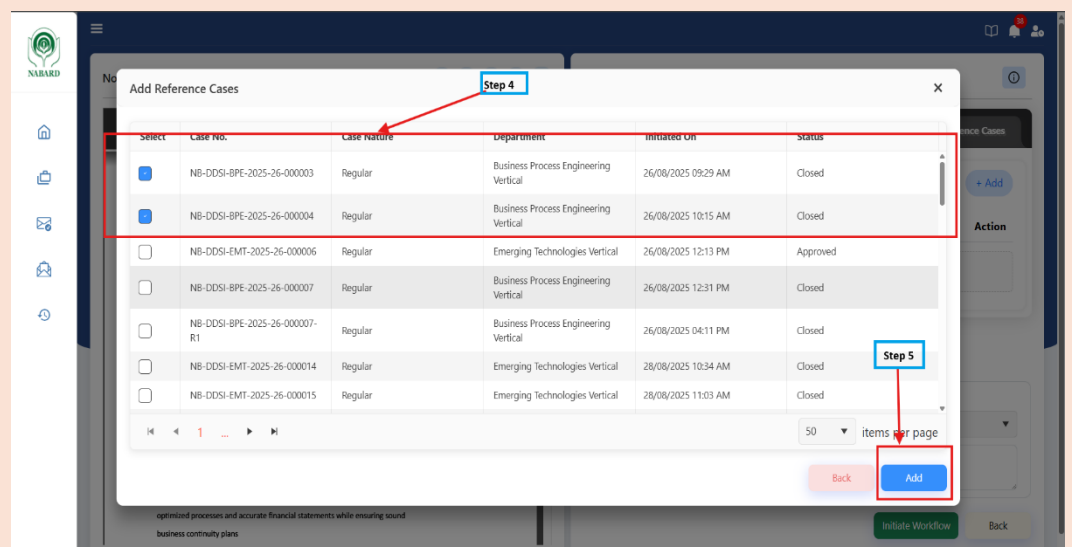

- **Step 2:** Click on Reference Cases Tab

- **Step 3:** Click on  icon to see the cases that can be referred to.

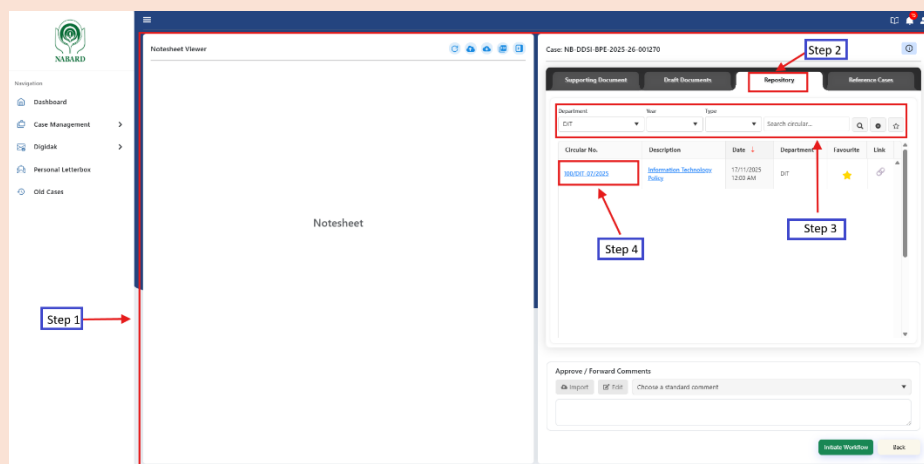

- **Step 4:** Select the Case by clicking on the checkbox in the 1st column of respective row.
- **Step 5:** Click on Add button to add the case as reference case.

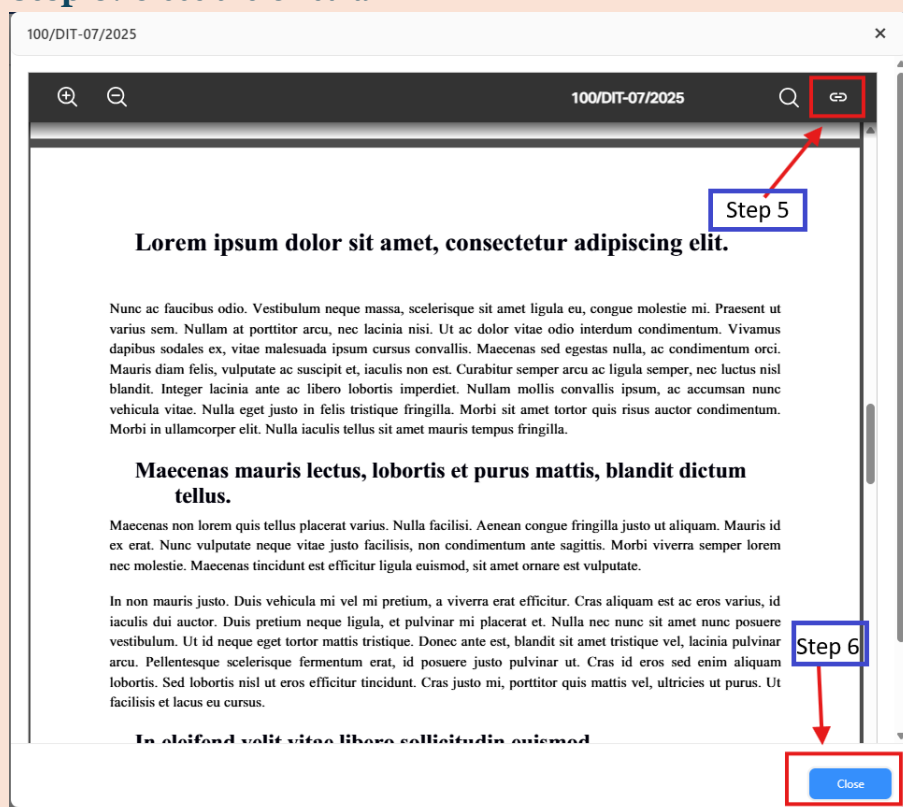

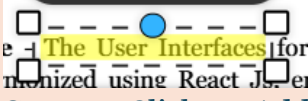

12. How to Add circulars in a case

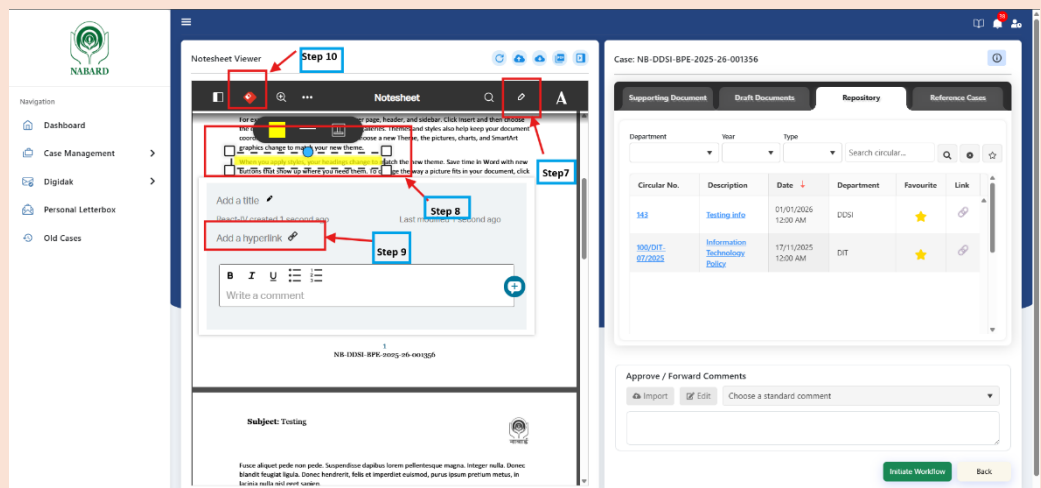

- Users can add circulars from the repository by following below mentioned steps :
 - **Step 1:** Open the Case details page of the case in which the circular(s) are to be added
 - **Step 2:** Click on the Repository Tab
 - **Step 3:** Select the circular you want to upload based on the filters
 - **Step 4:** Open the circular and go to the page which is to be referred.

- **Step 5:** Click on the copy page reference icon  which will create a link of the page
- **Step 6:** Close the Circular

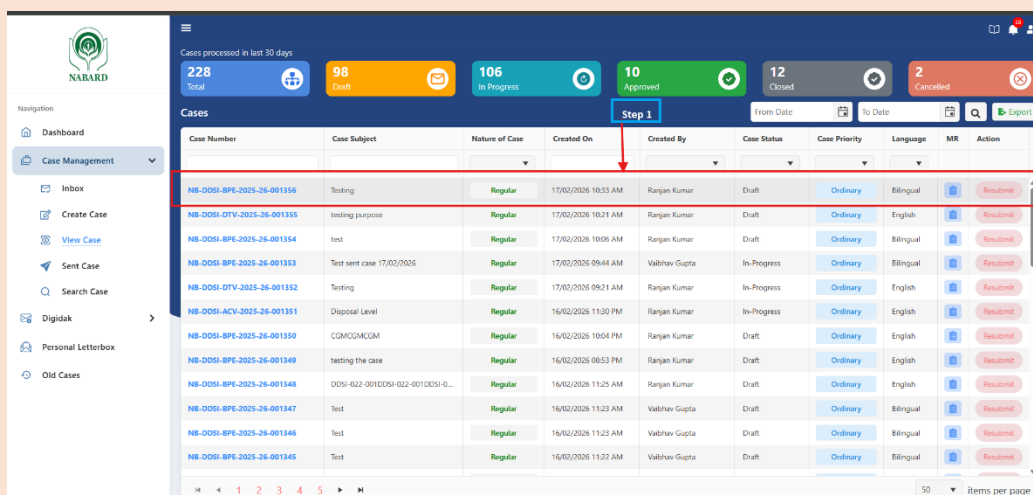

- **Step 7:** Click on  tool located on top of the note sheet which will activate the highlighter tool.
- **Step 8:** Select the text which refers to the circular like this:

- **Step 9:** Click on Add a Hyperlink and paste the hyperlink there by using (CTRL + V)
- **Step 10:** Click on  to save the hyperlink located at the top of the note sheet.

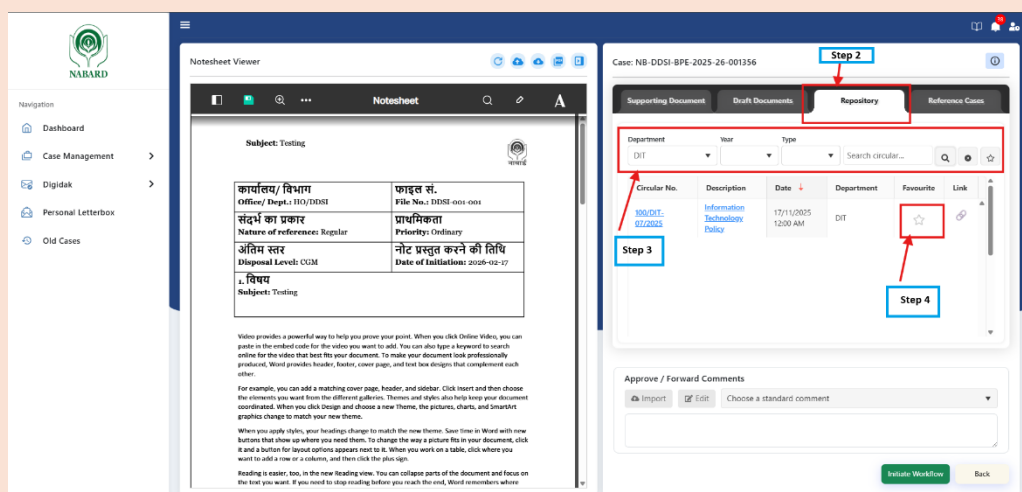

Users would now be able to directly refer to the part of the circular by clicking on the highlighted part of the note sheet.

13. How to mark circulars as favourite

- Users can mark frequently referred circulars as Favourites, enabling quick access without the need to search for them repeatedly.
 - **Step 1:** Open the Case details page of the case in which the circular(s) are to be added

- **Step 2:** Click on the Repository Tab
- **Step 3:** Select the circular based on the filters
- **Step 4:** Click on ★ button, to mark the circular as favourite

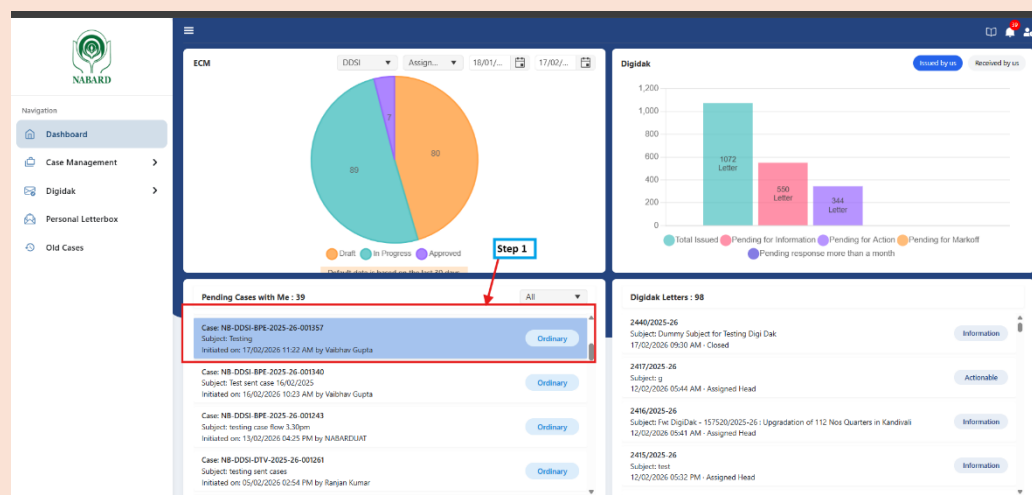

14. How to Acquire a case

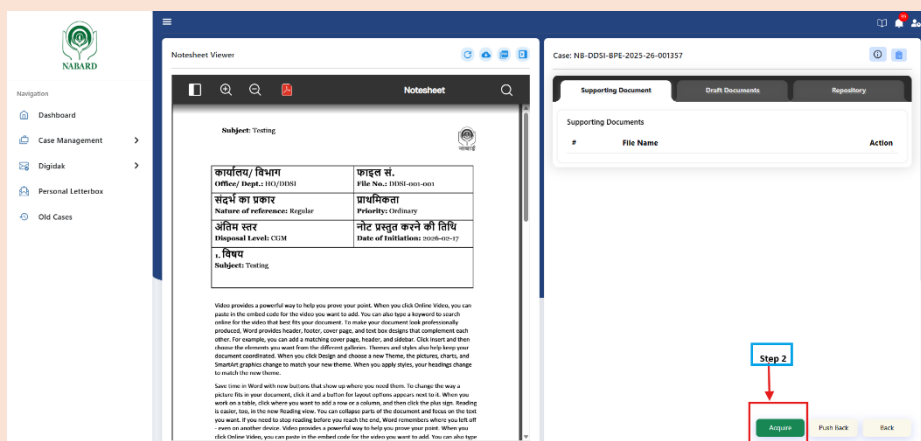

- Users must acquire a case before initiating any action on it. Only cases available in the Inbox can be acquired. Inbox cases can be viewed either through the Dashboard or the Inbox page. The process for acquiring a case is as follows:

Through Dashboard Page

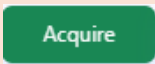

- **Step 1:** Click on the case, which will open the case details page

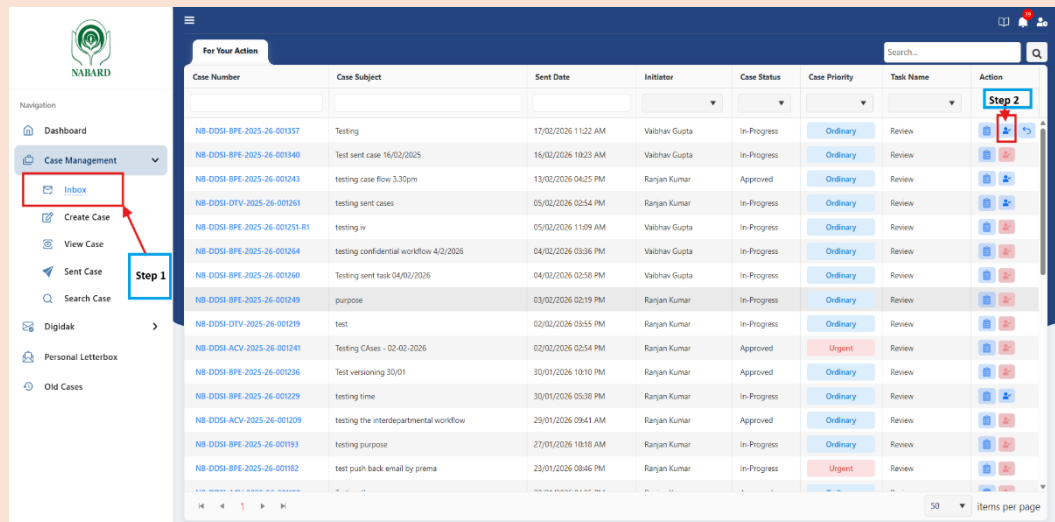

- **Step 2:** Click on  button, to acquire the case and start working on it.

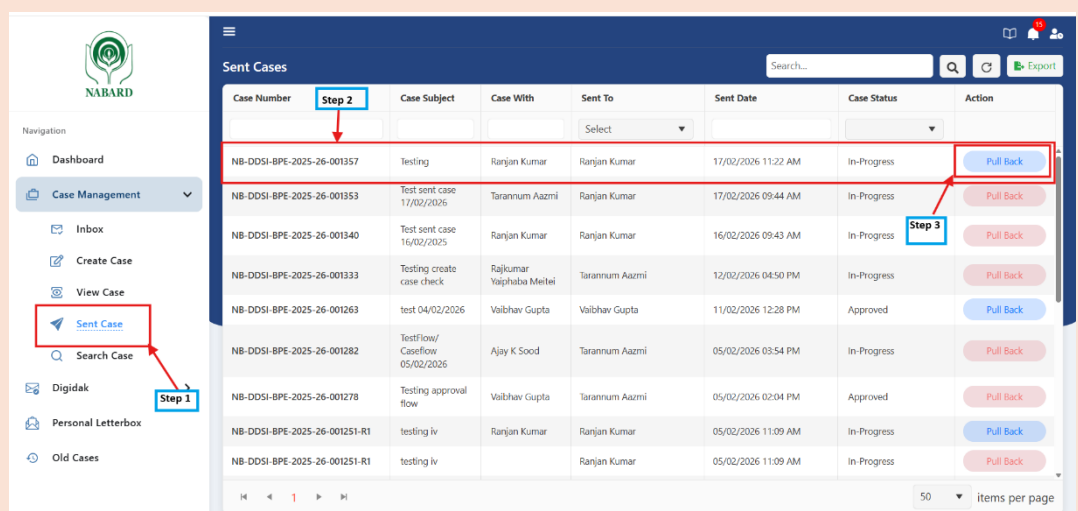

Through Inbox Page

- **Step 1:** Click on Inbox Page which will open the list of all cases that are pending with you.
- **Step 2:** Click on  button located at the last column of the case row **OR** open the case and click on  button to acquire the case.

15. How to Pullback a case

- Users can pullback a case which has not been acquired by the user to whom the case was sent, by following the below mentioned steps
 - **Step 1:** Open the Sent Case Page
 - **Step 2 :** Check the case that is to be pulled back
 - **Step 3:** Go to the last column (Action) and click on  button to pull back the case.

16. How to Pushback a case

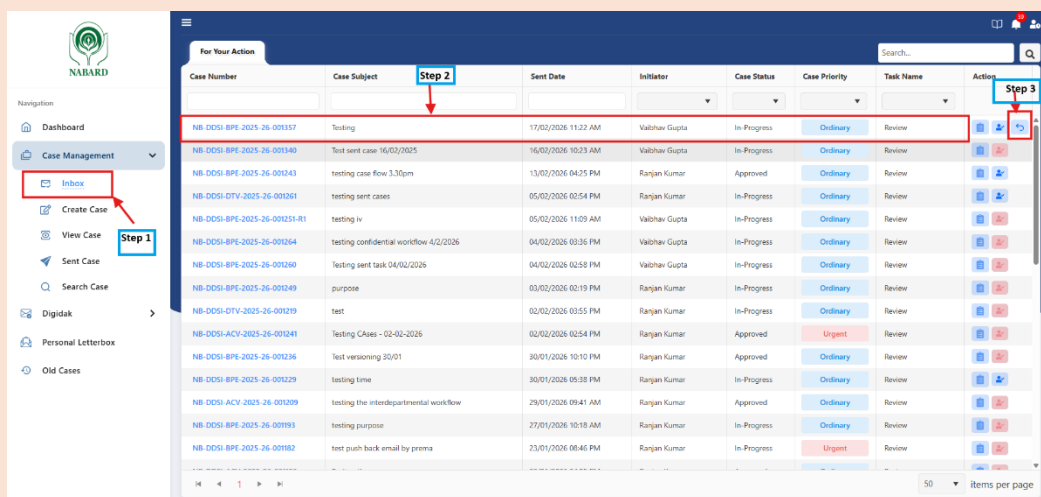

- Users can push back a case if it has not been acquired by you by following the below mentioned steps:

➤ **Step 1:** Go to Inbox Page

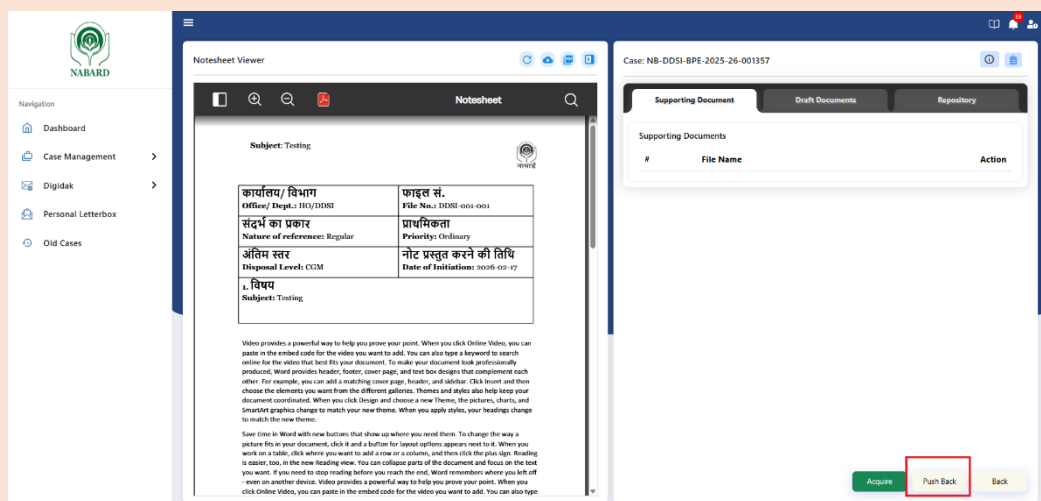

➤ **Step 2:** Check the case that is to be pushed back

➤ **Step 3:** Go to the last column (Action) and click on  button

to push back the case **OR** open the case and click on  button to push back the case.

➤ **Step 3:** Click Yes on the confirmation pop up

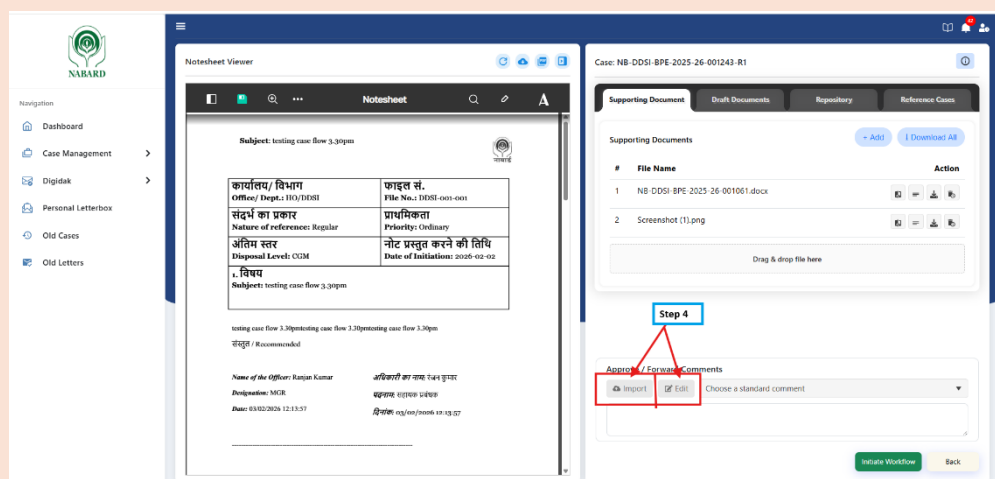

Step 3: Click on the 'Yes' button in the 'Re Submit' dialog box.

Re Submit

Are you sure you want to Re Submit NB-DDSI-BPE-2025-26-001243?

Yes No

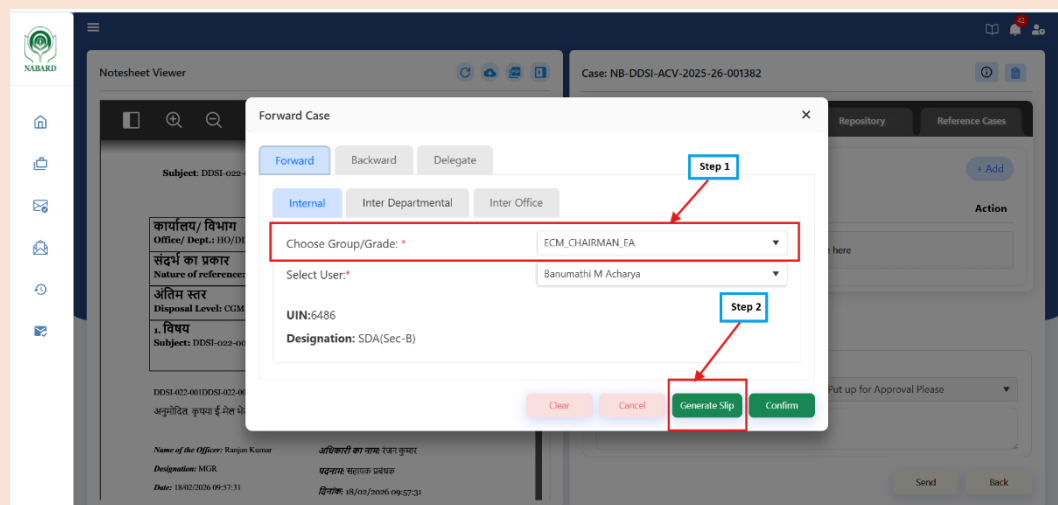

- **Step 4:** Once the case details page opens, the users can either click on  **Import** button for uploading the resubmit note or directly type in the textbox or Click on  **Edit** button to type in the textbox.

The screenshot displays the NABARD Case Management System interface. The left sidebar shows navigation options: Dashboard, Case Management, Digidak, Personal Letterbox, Old Cases, and Old Letters. The main content area is divided into two panels. The left panel, titled 'Notesheet Viewer', shows a case details form with fields for 'Subject: testing case flow 3.3ipm', 'Office/ Dept.: HOD/DESH', 'File No.: 10581-001-001', 'Nature of references: Regular', 'Priority: Ordinary', 'Disposal Level: CDM', and 'Date of Initiation: 2025-02-02'. The right panel, titled 'Case: NB-DDSI-BPE-2025-26-001243-R1', shows 'Supporting Documents' and a table with columns 'File Name' and 'Action'. Below the table, there is a section for 'Apply / Forward Comments' with buttons for 'Import' and 'Edit', and a dropdown menu for 'Choose a standard comment'. A red box highlights the 'Import' and 'Edit' buttons, and a label 'Step 4' points to it.

27. How to Generate Case Slip for TMT

- Users can generate Case Slip for Cases that are forwarded to TMT (Chairman and DMD) only for the cases that are to be forwarded to Chairman / EA to Chairman or DMD/ EA to DMD.
